# Pawan Sharma

## ABOUT ME

I am a dedicated and results-driven Web Developer with strong foundation in both front-end and back-end technologies, including HTML, CSS, JavaScript, React, and Node.js. I have keen eye for design and usability, and I enjoy building clean, responsive, and user-friendly websites and applications. I thrive in collaborative environments, adapt quickly to new technologies, and am always eager to learn and take on new challenges. My goal is to create impactful digital experiences that are both functional and visually engaging.

| 2019 - 2022<br>BCA | **Jaipur National University** |
| 2019<br>Intermediate | **St.Mary's Inter College, Gorakhpur** |
| 2017<br>High School | **St.Mary's Inter College, Gorakhpur** |

## Projects

**CAR SCRAPER**

Car Scrapper is a full-stack web application built with the MERN stack (MongoDB, Express.js. React, Node.js) that allows users to search, view, and manage used or scrap cars. It features user authentication, car listing management, and responsive UI for a seamless user experience

**Chat Engine**

Chat Engine is a scalable, full-stack chat application designed to deliver real-time messaging with a clean, responsive UI. The project leverages Tailwind for rapid styling, Express for backend routing and API logic, and MongoDB for storing user data and messages. This project is not fully completed.

**PORTFOLIO**

Designer Portfolio is a modern web application built with the MERN stack to showcase the work of a graphic and UI designer. It features dynamic project galleries, smooth animations, and are to responsive layout to highlight creative work across devices.
